## Personal Profile Statement

I have completed my two years of engineering from BITS Pilani, Hyderabad campus. I am pursuing Major in Computer Science and Minor in Data Science from BITS. I will graduate in year 2022. Currently I am proficient in subjects like Data Structures and Algorithms, Object Oriented Programming, Database Design and Machine Learning. The programming languages with which I am familiar are C, C++, JAVA and Python. I have a great interest in the field of Data Science and Machine learning and would love to pursue my career in this field only. My Intern at Wipro was also in the field of data analytics.

## Achievements

- Made a cab-booking app in my OOPS course in my college. That was a desktop application. I was the leader of my team. That application was fully operational and very user-friendly.
- Made recruitment engine while working as Intern at Wipro Ltd. This could rank the people who have applied for the job based on their qualifications and skills. Thus it could help HR team to quickly recognize who are most suitable for any particular job profile. We were a team of 10 members and I was the machine learning head of my team.
- Made an assistant using Natural Language Processing in Python like Alexa. It could play songs, videos, tell the temperature of any city, click selfie, record videos using laptop, tell the description of any thing that we enter (same info as present on wikipedia). I also incorporated the feature of telling the current no. of Covid-19 cases in any city, state or country. It was very interactive assistant. I could even control the electronic equipments like fan, tubelight, AC etc from my assistant.

## Education

- 2003-2016 St. Joseph Boy's School Jalandhar, Punjab. Score in 10<sup>th</sup> - 91.2%
- 2016-2018 Apeejay Mahavir Marg, Jalandhar, Punjab. Score in 12<sup>th</sup> - 95%
- 2018-2022 BITS Pilani, Hyderabad campus (current CGPA - 8.97)

## Work Experience

- Worked as data analyst intern at Wipro Ltd for 2 months in June - July, 2020.

## Qualifications

- Coursera certifications on Python, Algorithmic Toolbox, Algorithms on Graphs, C++, Machine Learning.
- IBM certifications on Data Science, Intermediate Machine Learning.
- Itronix Solutions, Mohali certifications on data science and Machine Learning.
- House Captain at my high-school.

## **Hobbies and Interests**

- Playing Badminton,cricket and chess.
- Competitive coding on codeforces.
- Watch web-series
